ONLY SILVER.

No Side Issues Taken Up by the Memphis Conference.

DEMOCRATS WILL REMAIN SO.

They Will not Pledge Themselves to Leave if their Views Do Not Prevail in Convention - Full Text of the Resolutions.

Memphis, June 13.—Notwithstanding the cloud that for a moment threatened to darken the horizon of the free silver convention of the Southern and Western States, in the shape of the secession of a number of prominent Democrats from the convention because of the advocacy of the abolition of party lines by one or two of the speakers, the end was harmony and there was no fight over the resolutions after they were read to the convention for the reason that they carefully avoided any reference calculated to produce discord. The resolutions advocate the free and unlimited coinage of gold and silver at the ratio of 16 to 1, declare that international co-operation is not necessary and attribute the recent hard times entirely to the demonetization of silver. Although nothing was said in the resolutions about abolition of party lines as proposed by Sibley, Stewart and others, the speakers of the day, almost without exception, took care to assert their Democracy and to repudiate any affiliation with either Republican or Populists. The resolutions follows:

"Silver and coin have in all ages constituted the money of the world, were the money of the fathers of the republic, the money of history and of the constitution. The universal experience of mankind has demonstrated that the joint use of both silver and gold as money constitutes the most stable standard of value and that the full amount of both metals is necessary as a medium of exchange.

"The demonetization of either of these historic metals means an appreciation from the value of money, a fall in the prices of commodities, a diminution of the profits of legitimate business, continuing increase in the burden of debt, a withdrawal of money from the channels of trade and industry where it no longer yields a safe and sure return and its idle accumulation in the banks and the great money centers of the country.

"There is no health or soundness in a financial system under which a hoarded dollar is productive of increase to its possessor which an invested dollar yields a constantly diminishing return and under which fortunes are made by the accretions of idle capital or destroyed by a persistent fall in the price of commodities and a persistent dwindling in the margin of profits in almost every branch of useful industry. Such a system is a premium upon sloth and a penalty upon industry and such a system is that which the criminal legislation of 1873 has imposed upon the country.

"We believe in a money of a stable value; we believe least of all in an appreciating standard; it is only through the practical operation of bimetallism that a stable standard of value can be secured. A standard constituted of money constantly increasing in value is not a sound, a single nor a stable standard, but a constantly changing standard. The effect of gold monometallism is to establish one standard for the creditor and another for the debtor; and there can be no more dishonest monetary system than that which gives short measure to the borrower and long measure to the lender.

"Under the policy prevailing prior to 1873 there can be no violent change in relative value of the two metals, for a rise in value of one metal is counteracted by a decreased demand and a fall in value by an increased demand. Under the operation of this beneficient law a stable relation was maintained between them in spite of the most extreme changes in relative productions. From the first period of our history up to 1873 the right of the debtor to choose whether he should pay his debts in silver or gold coin was always recognized. This policy has been to transfer his right to the creditor, thus destroying the parity between them.

"Believing that it is absolutely necessary to reverse this iniquitous and ruinous policy, we therefore

"Resolve, That we favor the immediate restoration of silver to its former place as a full legal tender standard money equal with gold, and the free and unlimited coinage of both silver and gold at the ratio of 16 to 1, and upon terms of exact equality.

"That, while we should welcome the co-operation of other nations, we believe that the United States should not wait upon the pleasure of foreign governments or the consent of foreign creditors, but should themselves proceed to reverse the 'grinding process' that is destroying the prosperity of the people, and should lead by their example the nations of the earth.

"That the rights of the American people, the interests of American labor and the prosperity of American industry have a higher claim to the consideration of the people's lawmakers than the greed of foreign creditors, or the avaricious demands made by 'idle holders of idle capital.' The right to regulate its own monetary system in the interests of its own people is a right to which no free government can barter, sell, or surrender. This right is a part of every bond, of every contract and of every obligation. No creditor or claimant can set up a right that can take precedence over a nation's obligations to promote the welfare of the masses of its own people. This is a debt higher and more binding than all other debts, and one which is not only dishonest, but treasonable to ignore.

"The bimetallic standard of silver and gold has behind it the experience of ages and has been tested and approved by the enlightened and deliberate judgment of mankind. The gold standard is a departure from the established policy of the civilized world with nothing to commend but 22 years of depression and disaster to the people and extraordinary acumen of wealth in the hands of the few.

"There are some facts bearing upon this question recognized and admitted by all candid men, whether advocates of bimetallism or of the single gold standard. Among these is the fact that the very year that marked the change from the bimetallic to the single gold standard is the very year that marked the change from a condition of rising prices, large profits, general contentment and great prosperity, to a condition of falling prices, diminishing profits, insecurity of investments, unemployed labor and a heavy depression in all branches of trade and industry. It is not a matter of dispute, even among the honest advocates of the gold standard, that general prosperity came to an end with the destruction of the bimetallic system and that hard times, falling prices, idle workingmen and widespread depression have come in with the gold standard and prevail to-day wherever the gold standard has been adopted.

"Every international monetary conference that has been called, every demand in this country and in Europe for an international agreement to reestablish the bimetallic standard, is a confession that the demonetization of the silver system was a blunder if not a crime, that its consequences have been disastrous and that the conditions that it has brought are full of menace and peril. The logic of facts establishes beyond intelligent question conspiracy of selfish interests is the cause of the widespread depression and suffering that began with the gold standard. There can be no restoration of prosperity, no permanent relief from prevailing conditions until the great cause has been removed by a complete restoration of silver to its proper place as a money metal equal with gold.

"Under the financial policy that now prevails we see the land filled with idle and discontented workingmen and an ever-growing army of tramps - men whom lack of work and opportunity have made outcasts and beggars. At the other end we find that a few thousand families own one-half the wealth of the country. The centralization of wealth has gone hand in hand with the spread of poverty.

"The pauper and the plutocrat are twin children of the same vicious and unholy system. The situation is full of menace to the liberties of the people and the life of the Republic. The issue is enfranchisement or hopeless servitude. Whatever the power of the money can do by debauchery and corruption to maintain its grasp on the law-making power will be done. We therefore appeal to the plain people of the land with perfect confidence in their patriotism and intelligence to arouse themselves to a full sense of the peril that confronts them and defend the citadel of their liberties with a vigilance that shall neither slumber nor sleep."

The fight over the principles laid down by Sibley in his speech last night began early in the day, with no less a man than Senator Isham G. Harris at the head of the faction advocating simon-pure Democracy, with him was M. G. Galloway of Memphis.

The convention adjourned to-night after speeches by W. J. Bryan, editor of the Omaha World-Herald, A. J. Warner and State Senator Wolcott of Indiana.

The committee on resolutions also offered the following resolution, which like the platform was unanimously adopted:

"Resolved, That a committee composed of one member from each State be appointed by the delegates thereof in this convention whose duty it shall be to correspond with the representatives and advocates of bimetallism and bimetallic societies in the different sections of the Union and devise measures to advance the cause of bimetallism throughout the United States. That this committee shall have power to cause a national conference of bimetallists whenever in the opinion of the committee the cause of bimetallism can be advanced thereby. Said committee shall have power to fill all vacancies."

CABLE'S REPLY.

The Duties of the National and State Committees Defined.

Rockford, Ills., June 13.—Hon. Ben. T. Cable to-night gave out the following reply to a letter received by him from Chairman Hinrichsen of the State central committee requesting his acquiescence as a member of the national committee in a call for a national convention on the monetary issue.

Hon. W. H. Hinrichsen;

"Dear Sir—I beg to acknowledge the receipt of your letter of June 10 enclosing certain resolutions adopted by a number of Democrats at a meeting held in Springfield on the 5th of June. Among these resolutions is one requesting the Democratic national committee to call a convention not later than August, 1895, to consider the money question. Your letter to me asks for a favorable reply:

"It would, in my judgment, be a grave abuse of the powers of the national committee at the request of a mere faction of the party such as you now represent, to call a convention for the purpose of forcing upon the party any issue whatsoever, and especially so when the course you propose is so utterly at variance with of its teachings in the past. Even if there was a precedent to warrant the calling together of the national Democracy a year in advance of the regular date for its convention, I should still regard such action on the part of the committee as not only ill-timed and unwise, but as loud in its promise of evil consequence and mischief to the party's welfare. Without wishing to offend you, I think I should say that I conceive you to have made the same mistake concerning the powers and authority of the national committee that you recently made when considering the scope of the authority of the State central committee over which you preside. It is not as you suppose one of the functions of the national committee to make new issues or to urge new doctrines upon the party for its acceptance, but to construe Democracy as it exists to-day, to determine what is Democratic faith and what is unfaith, to select for instance one of two or more contesting State organizations as properly representing the teachings of Democracy and worthy of the name by applying the simple test of the principles adopted by the party when last nationally convened.

"In this connection it seems to me not inappropriate to invite your attention to the resolutions No. 1 and 2, which were adopted by the gentlemen who met in Springfield on the 5th of June, and to ask you to compare them with the resolutions adopted by the national convention of 1892 which, as you must be aware, must remain the test of the party fealty until a new declaration is made by the convention which meets a year hence. Yours very truly,

"BEN T. CABLE,

"Member of the National Democratic Committe for Illinois."

The Ohio Populists have called their State convention to meet at Columbus, Aug. 1 and 2.

NO SURRENDER.

Manitoba Will Not Obey the Remedial Order.

FIRM BUT COURTEOUS REPLY.

The Inefficiency of the Catholic Schools Given as a Reason for the Province Refusing to Help Support Them any Further.

Winnipeg, Man., June 13.—The reply of Manitoba to the Dominion government's order suggesting that redress be given the Roman Catholics in educational matters and that the separate school system previously in vogue here be re-established, is a stern refusal on the part of the Province to comply with the order. Attorney-General Sifton made public Manitoba's answer when the legislature assembled this afternoon and debate thereon is expected to come up on Monday. The reply is in the form of a memorial addressed to His Excellency the Governor-General of Canada in council. It first recites the remendial order and then submits the following:

"The privileges which by the said order we are commanded to restore to our Roman Catholic fellow citizens are substantially the same privileges which they enjoyed previous to the year 1890. Compliance with the terms of the order would restore Catholic separate schools with no more satisfactory guarantee for their efficiency than existed prior to the said date. The educational policy in our present statutes was adopted after an examination of the results of the policy theretofore followed under which the separate Roman Catholic schools (now sought to be restored) had existed for a period upwards of 19 years. The said schools were found to be inefficient as conducted under the Roman Catholic section of the board of education; they did not possess the attributes of efficient modern public schools. Their conduct, management and regulation were defective. As a result of leaving a large section of the population with no better means of education than was thus supplied, many people grew up in a state of illiteracy and so far as we are aware there has never been an attempt made to defend these schools on their merits, and we do not know of any ground upon which the expenditure of public money in their support could be justified. We are, therefore, compelled to respectfully state to your excellency in council that we cannot accept the responsibility of carrying into effect the terms of the remedial order."

FOREIGN QUESTIONS.

Complications Which Confront the Secretary of State.

Washington, June 13. Mr. Olney is equipped in advance for the duties of his new office, as he has been consulted constantly during the last year on the various complications over Venezuela, Nicaragua, Bering Sea, the Waller case, foreign tariff retaliation, the Japanese-Chinese treaties, Spain's conflict with Cuba and the lesser questions in which the United States has been brought into relation with the rest of the world.

The last year has been ususually fruitful in foreign complications. Some of these were closed by Mr. Gresham or advanced to such a state that they will not include the British-Nicaragua incident, in which the United States aided toword a settlement; the Japanese-Chinese treaty of peace, which was effected as a result of kindly intervention by the United States, and the friction with Hawaii, as the result of the demand for the recall of Minister Thurston. The other foreign questions which attracted public attention during Mr. Gresham's administration of the department are still pending.

With Great Britain there are two questions of special importance to be adjusted—those affecting Bering Sea and the Venezuela boundary. A Bering Sea conference will be held in Washington in October next, Sir Julian Pauncefote having effected the preliminary arrangements with Mr. Gresham. The purpose is to draft a new treaty by which the claims of Canadian sealers for alleged seizures and losses will be submitted to a commission. The conference will not take up the more important question of re-adjusting the Bering Sea regulations in order to make them effective. This will come later, however, and promises to call out a vigorous legal and diplomatic controversy.

The British-Venezuela question is main ly significant in involving the Monroe doctrine. The United States has asked Great Britain to arbitrate the question. So far as is known no definite answer has been given to Ambassador Bayard, who presented the request of this country. But as the British foreign office has positively declined to consider similar requests by Pope Leo, and by the International Arbitration association, it is not doubted that in due time a declination will come to the United States. It will then remain for the State Department to determine to what extent British aggression in Venezuela is compatible with the Monroe doctrine. Mr. Gresham had made a special study of the subject, regarding it as of more importance than any of the foreign questions under consideration. Mr. Olney was called into conference, and for several weeks prior to his selection for Secretary of State he was busy investigating this complicated question. It is probable that a definite issue will be reached when Ambassador Bayard sends Great Britain's answer.

With France the only question of consequence ending is as to the imprisonment of ex-Consul General Waller. Ambassador Eustis has been instructed to make inquiries with a view to securing for Waller all the rights of an American citizen abroad, including a trial by a civil court.

Germany, Austria and Denmark are having numerous tariff complications with the United States, which threatened at one time to bring about radical retaliation by this country. The readjustment has proceeded largely through the State department. Germany and Denmark continue their exclusion of American meats, but there are prospects that a satisfactory settlement will be effected. Discrimination duties levied against the beet sugars of Germany and Austria brought on the conflict, and Denmark followed the lead of her neighbor.

The Cuban revolution promises to be a source of controversy with Spain. Minister Dupuy de Lome has already asked the State Department to apprehend those sending arms to Cuba, and the suggestion is made that Spain will make a claim against the United States based on the precedent of the Alabama claims. Officials are not solicitous, however, as to this claim, and the intimation is made that it is inspired by British sources and of resentment for the Alabama decision. Italy and the United States are expected to arrive at a satisfactory settlement ere long concerning the murder of a number of Italians in Colorado. It is understood that Secretary Gresham regarded the offenses such an infringement of international rights that he inaugurated negotiations for the payment of cash indemnities to the families of the deceased Italians. This step, if consummated, will be in addition to the steps taken by the authorities of Colorado to prosecute the offenders.

The only subject of consequence pending with Russia is that concerning the amelioration of the condition of the Jews. The United States has taken little part in the Armenian question, which is provoking a conflict beween Turkey and the European powers.

One of the first acts Mr. Olney is likely to be called on to perform is that of recognizing the new government of Ecuador, which has come into power after a bloody revolution. There are no pending questions with other South or Central American countries save that in which Venezuela is involved.

AGAINST SILVER.

A Speech by Senator Lindsey in Frankfort, Ky.

Frankfort, Ky., June 13.—Senator Lindsey, who spoke on the currency question here to-day, took up the issue of free silver coinage without any preliminary remarks, and his speech was entirely devoted to the currency question. He urged that it is a business proposition with which sentiment has nothing to do except as it may effect private faith or public integrity. In this connection the Senator said: "The discontinuance of the silver coinage by the world at large in the years between 1870 and 1874 may or may not have been a crime. I am one of those who incline to the belief that it was a grave mistake, and that conditions would have been better to-day if Germany, the Latin union and the United States had continued the coinage of silver. But whether a crime or a mistake, the act of 1873 was not passed surreptitiously, as is now so persistently claimed."

Mr. Lindsay contended that the silver miners were the only people who profited by the change. He then gave figures to show that there is no relation between the decreased price of silver and the price of commodities. Also that the period of business depression, instead of being caused by the closing of the mints to silver coinage, was the direct result of reckless speculation and tariff legislation. He said the proposition that the United States alone could maintain the parity between gold and silver was preposterous, and added that the only hope of free coinage was by international agreement. He contrasted the conditions in countries where the currency rests upon a gold basis and in others where free silver coinage prevails.

He quoted freely from the monetary report made by Senator Jones of Nevada, in 1876, to disprove the present arguments of Mr. Jones and other silver leaders.

Senator Brice Expresses Himself.

Cleveland, O., June 13.—Asked as to the effect of his recent letter on the money question, Senator Calvin S. Brice said:

"I have received hundreds of letters, and they reflect every possible shade of opinion on the question, but all the opposition will pass away in a few months and all members of the party will be united on the money question and on the platform of 1892. With business reviving and the price of wheat, ore and all other products going up, the people will have no patience with anything that tends to unsettle our monetary system. They have already begun to turn from the agitation, and as the prosperity grows the silver advocates will gradually find no one to listen to them."

"Do you believe, then, that the demand for more silver is due largely to the hard times?"

"Yes; when the times are hard and people have a lot of leisure time they talk about three things religion, metaphysics and the money question. When the times improve the people devote less time to discussion and attend to their business."

Senator Brice stated that he had not yet decided as to whether he would again be a candidate for Senator.

Use of Petroleum Discontinued.

Washington, June 13. George H. Murphy, vice commercial agent of the United States at Luxemburg, Germany, in a report to the Department of State reports a decree of public works discontinuing, wherever it is practical, the use of petroleum at railway stations in consequence of the rise in the price of American petroleum.

Robbed the Midland.

Cripple Creek, June 13.—The Midland ticket office was robbed of about $500 to-day.

It seems that a new clerk, whose name is B. F. Wilson, has been put in in the past few days, and since his arrival has been playing pretty heavy at the gambling houses. He came from Denver, and before this always bore a good reputation. He has now left the city, but the Midland company have offered rewards for his capture and feel sure that they will get their man.

The detectives who have been at work tracing up the stolen diamonds of Mr. and Mrs. Halthusen are on to a strong clue now. A pawnbroker at Gillett appears to be mixed up in the affair. The $1,600 worth of diamonds are said to have brought $30.

Major Halford to Denver.

Washington, June 13.—Among the orders issued to-day from the War Department was one transferring Maj. Elijah W. Halford of the pay department from Omaha, Neb., to Denver, Colo. Maj. Halford has been stationed at Omaha since his appointment as paymaster at the close of his services as private secretary to President Harrison. The promotion of Gen. Stanton to be paymaster general necessitated a reassignment of officers, of which this is one. Gen. Stanton was succeeded as chief paymaster by Maj. Tower and other changes in the corps are probable.

TRUSTS ILLEGAL.

Important Decision in the Whisky Trust Case.

PULLMAN COMPANY AFFECTED.

A Sweeping Decision by the Illinois Supreme Court—Any Organization Whose Prime Object is to affect Prices is Illegal.

Springfield, Ills., June 13.—The decision handed down by the Supreme Court this morning in the Whisky Trust case, in which the decision of the Cook County court declaring the trust illegal, is affirmed, is one of the strongest arraignments of combinations for the purpose of cornering or controlling prices in products ever promulgated by any court, and trusts of this character are hit hard by the court.

The opinion is voluminous, containing 49 pages of closely written typewriter manuscript, and goes fully into the details of the case. Many citations are made, among them Chicago Gas and the Match Trust to which the court maintains the Whisky Trust bears a similarity. This deduction is made from the fact that the Chicago Gas and Diamond Match companies exceeded their charter rights by engaging in lines of business not granted by their charters. The Whisky Trust, the court maintains, exceeded its charter by forming a combination to control prices rather than to manufacture whisky.

The opinion was written by Judge Bailey. It was concurred in by all the members of the court. It is a direct approval of the conduct of the Attorney General, and a direct and emphatic condemnation of monopolies, trusts and combines, and unless the Legislature should entirely disregard the interests of the people Illinois will no longer be the home and abode of trusts.

It is plain also from the language used by the Supreme Court in this case that the Pullman Palace Car company will meet with the same fate at the hands of this court that the Whisky trust has met with.

The court in sustaining the judgment of ouster of Judge Gibbons, says:

"There can be no doubt, we think, that the Distillers' and Cattle Feeders' trust, which preceded the incorporation of the defendant was an organization which contravened well established principles of public policy, and that it was therefore illegal, no one who intelligently considers the scheme of the trust, can for a moment doubt that it was designed to be and was in fact a combination in restraint of trade, and that it was organized for the purpose of getting control of the manufacture and sale of all distillery products, so as to stifle competition and be able to dictate the amount to be manufactured and the prices at which the same should be sold, and thus to create or tend to create a virtual monopoly in the manufacture and sale of products of this character. No other business principle can be suggested upon which development of such an elaborate and far-reaching scheme can be accounted for.

"No rational purpose for such an organization can be shown consistent with an intention to allow business to run in its normal channels, to give competition its legitimate operation and to allow both production and prices to be controlled by the natural influence of supply and demand and the results as shown in the information were such as might be anticipated. The trust obtained possession of nearly all the distillery product of the United States, thus enabling it to dictate prices and the amount of production, and to thus draw to itself the substantial control of the distillery business of the country."

The opinion then quotes numerous authorities, showing that the courts of other States held such combinations illegal.

The information in this cause gave a detailed history of the old Distillers' and Cattle Feeders' trust, which was a combination entered into by certain gentlemen residing in Peoria, Cincinnati and other points in the United States, whereby they came together and formed what was called the Distillers' and Cattle Feeders' trust. The purpose of this organization was to constitute nine trustees to represent the firms or corporations that would become parties to the organization.

These trustees were empowered and did issue trust certificates, and exchanged them for the stock or corporations that did become members of it.

From time to time this Distillers' and Cattle Feeders' trust drew to it, and there had become a part of it, 81 different corporations, and scattered from one end of the Union to the other, organized for the purpose of distilling high wines and spirits. About the latter date decisions appeared in different parts of the United States condemning trusts and combinations of this kind. These trustees at once resolved to assume a legal guise and to take the law into partnership with them. They resolved that they would become incorporated under the laws of the State of Illinois, and called themselves the Distilling and Cattle Feeding company. It will be remembered that the name of the old organization was that of the Distillers' and Cattle Feeders' trust. They applied to the Secretary of State of Illinois in the usual form, under the general law, and the purposes of the proposed incorporation on the face of the petition making apparently legal; the certificate of final incorporation was issued by him, and so the Distilling and Cattle Feeding company was started, which was a direct continuation of the old Distillers' and Cattle Feeders' trust.

The stock of this new corporation was $35,000,000. That was exchanged for trust certificates before then issued by the trustees of the trust, and which had been exchanged for the stock of the constituent corporations, viz., the 81 corporations brought within its control. It must also be remembered that the nine trustees of the trust, who were now the nine directors of the new corporation, were also directors of each of the 81 old corporations forming the trust. As directors of the said 81 corporations they transferred to this new corporation all the property and plants of the 81 corporations. It will be seen at a glance, then, that the exchange of stock of the new corporation for the old trust certificates, which trust certificates had been organized for the stock constituent corporations, was virtually in effect a changing of the stock of the new corporations for the stock of the different 81 old corporations.

Result of the Decision.

Peoria, Ills., June 13.—The decision of the Supreme Court in the Whisky Trust matter created no surprise here. As soon as the full text of the decision is received suits will be commenced against the receiver for the recovery of the real estate. It is understood, that this course will be pursued in every city in the country where there are any distilleries standing on leased ground.

Another Suit.

Chicago, June 13.—Receiver McNulta of the Distillers' and Cattle Feeding company to-day filed another bill for the recovery of $500,000, alleged to have been taken from the company without authority and squandered in stock speculations. The bill is directed against Joseph B. Greenhut, Herbert L. Terrell, Nelson Morris, William N. Hobart, Lewis H. Green, Peter J. Hennessy, Warren H. Corning and Julius E. French, and prays for an accounting of the money taken, and its return into the treasury of the Whisky trust.

A REBEL SHIP.

The George W. Childs Carrying Aid to the Cuban Insurgents.

Washington, June 13. Information reached Washington to-day that the steamer Geo. W. Childs which, it is said, left Philadelphia a fortnight ago, in the interest of Cuban rebels, touched at Jamaica yesterday and sailed last night for Santa Domingo. The vessel's movements are shrouded in mystery. When she left Philadelphia she dropped down the river to Greenwich, where she is understood to have taken on board a consignment of arms for the revolutionists. Some days later she put in an appearance at the Florida Keys. Here she is said to have received the filibustering party under the command of four leaders, Roloff, Sanchez, Garcia and Castillo, as was stated in the United Press dispatches on Tuesday last. It was originally announced that this party numbered 2000 all told, but it has since been known that the entire outfit did not exceed fifty persons. Nothing further has been heard from the vessel since these people were taken on board, until the information to-day that she had sailed from Jamaica last night. It is believed that the steamer called Geo. W. Childs was not allowed to remain any length of time in Jamaican waters.

THE COLIMA WRECK.

A Survivor's Testimony Reflects Severely Upon the Officers' Carelessness.

San Francisco, June 13.—The Federal investigation in the matter of the Colima disaster was continued this afternoon. Gustav Rowan, one of the passengers of the lost steamer, testified that he was in the steerage when the vessel listed very suddenly to one side, no one being able to stand up. He tried to secure a life preserver, but the steward prevented him, because he said, it would be too much trouble to put them back again. During all the time the vessel was in danger, he said, not one of the officers warned the passengers of their peril. Witness also testified that at Manzanillo a freight wagon was put on deck, but was not lashed. Other freight was put on top of the lumber, but nothing was tied down.

McKinley at Chicago.

Chicago, June 13. Governor McKinley, who arrived here to-day to attend the commencement exercises at Northwestern University, said politically:

"Ohio will roll up one of her splendid majorities for General Bushnell. The nominee for Governor is at the head of a particularly strong ticket. The campaign will sound the keynote of Republican success in the country in 1896. It would be a leap in the dark to attempt to outline the policy of the Democratic party or name its candidate for Governor. The sound money people hope to control the convention and it looks as if they will succeed. The Thurman free silverites will put up a strong fight, however. The country is thoroughly awakened to the dangers arising from Democratic misrule."

Germany and the Monetary Conference.

Berlin, June 13.—The National Zeitung says that a majority of the federal governments have sent their replies to the inquiry of the imperial government in regard to the expedience of summoning an international conference on the currency question. Some of the federal governments oppose the project unqualifiedly and others, while they don't imply direct opposition, express doubt as to its feasibility. None of them express a desire to have the conference called, and generally the replies indicate a conviction that such a movement would not be productive of positive results.

World's Five Mile Bicycle Record Broken.

Chicago, June 13.—The world's road record for five miles on a bicycle was broken here to-day. Before 500 people, John Lawson, "The Terrible Swede," rode five miles at Garfield Park this afternoon in 11 minutes, 33 2-5 seconds. The best prior record for five miles was 11:40, held by Bainbridge.

TELEGRAPHIC BREVITIES.

The convention of American railway telegraph superintendents met in Montreal and spent the first session listening to papers.

The Cleveland, Ohio, Rolling Mills company, one of the largest concerns of its kind in that part of the country, voluntarily advanced wages 10 per cent. in all departments.

Mackenzie tower, of the Parliament building at Ottawa, Ont., was struck by lightning. Four clerks were at work in the center of the room; they escaped with a severe shock.

The Ohio monuments at Chickamauga and Chattanooga park, 53 in number, will be dedicated and turned over to the United States government on Tuesday, the 18th day of September, 1895.

Resolutions were adopted by the Wisconsin Federation of Labor denouncing the United States Supreme Court in connection with its judgment against Debs et al. The court is referred to as the "bulwark of tyrrany," and the decision is termed the "severest blow against liberty and humanity since the infamous Dred Scott decision."

Highest of all in Leavening Power. Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

NAVAL CHANGES.

Commander Pigman Will Relieve Commander Thomas of the Bennington.

Washington, June 13.—Commander C. M. Thomas of the Bennington will be relieved of the command of that vessel, which is now presumably the only naval ship at Honolulu, and given three months' leave as soon as his successor, Commander G. N. Pigman, who was named to-day, reaches Hawaii by merchant steamer from San Francisco. Commander Thomas made a famous cruise in the Bennington last year, running from Naples, Italy, straight way to patrol duty in Bering sea. Later he was sent to protect American interests at Salvador, and through offering asylum to the President of the country, involved the United States in the troublesome Ezeta incident, which led to a radical change in American practice and to the decision of President Cleveland that "the right of asylum for political and other refugees has no foundation in international law." Commander J. M. Forsythe has been detached from the Naval home in Philadelphia to succeed Commander Pigman in charge of the reserve fleet of monitors in the James river near Richmond.

Civil Service Extension.

Washington, June 13.—The members of the civil service commission held an interview at a late hour this afternoon with President Cleveland with reference to extending the operations of the civil service law to the employes of the government printing office. It is proposed, it is understood, to include all the employes who, during the busy season of the year, aggregate several thousand, excepting only laborers and charwomen. There is still another very important proposed modification of the low which is to include within its provisions the several United States pension agencies. The commissioners have given this proposition much consideration and are said to regard it with great favor, and to be sustained in their views by the President.

Overland Park Races.

Denver, June 13 The prospects for good racing to-day at Overland park were slightly marred by the threatening aspect of the wether, although this did not deter 5000 enthusiasts from crowding the grand stand and booths to witness the excellent card presented to-day, including the match race between the stars of the harness firmament, Directly and Carbonate. The track was in only fair condition, being one second slow and the strong wind added three more seconds to the detriment of fast time. As the afternoon wore on the sky began to clear but a high wind still prevailed, when promptly at 3:07 o'clock Carbonate appeared on the track, driven by Loomis, closely followed by McDowell behind. Directly.

After scoring twice with Directly at the pole in the first heat, they got off nose and nose.

Carbonate left his feet on the turn at the eighth and Directly gained 10 lengths. At the half, Directly led by fully 15 lengths. At the three-quarters pole Directly was still far in the lead. Down the stretch Directly held his lead and won by 15 lengths with hands down in 2:15. Time by quarters: first quarter, 32½; half, 1:05; three-quarters, 1:33; the mile, 2:15.

By the time the first heat was finished the wind was blowing a strong gale. The second heat was an exact repetition of the first. They got off together and Carbonate again broke at the eighth. Directly led all the way around from 10 to 20 lengths, winning in a jog in exactly the same time as the first heat. Time by quarters: :32, 1:04, 1:37, 2:15.

To-morrow's free for all pacing race will witness Hal Pointer, Flying Jib and W. W. P. contest for a $1,000 purse. Robert J. will go an exhibition mile.

First race —Trotting, 2:40 class—Fitz Royal won; Supposition 2d; Ashnell 3d; best time, 2:26½.

Second race Pacing, purse $1,000, for 3-year-olds, free for all—Directly won! Carbonate 2d; best time, 2:15. (Two starters)

Third race Pacing, 2:14 class—Dempsie won; Our Nora 2d; L. C. Lee 3d; best time, 2:18.

Fourth race Running, five furlongs—Dick Broadwell won; Junetta 2d; King Regent 3d; time, 1.06¼.

Fifth race Running, seven furlongs—Billy Sunderland won; Venwood 2d; Artless 3d; time, 1:31½.

Overland Cycling Handicaps.

Denver, June 13.—The handicaps in the 25-mile bicycle race at Overland on Saturday were given out this morning by C. A. Lindsay and Bob Gerwing, the official handicappers. They are as follows: Limit, one mile, A. D. Keller, J. J. Keith; seven-eighths of a mile, Otis Emmons, Seymour Jarecki, J. T. Patterson; three-quarters, F. L. Sugrue; five-eighths, W. Schnell; one-half, J. M. Daniel, C. F White; three-eighths, C. F. Edmonds, E R. Pynchon, Hugo Block; one-quarter, E C. Oliver; one-eighth, A. B Stone Max Freutz, Ed Smith; scratch, Charlie Pugh, H. R. Renshaw, L. C. Wahl.

The officials are: Referee, Bog Gerwing, Judges, O. E. Boles, C. B. Whitney, M. W. Crane; scorers, J. D. Park, W. E. Perkins, C. H. Hilton, Jr.; starter, H G Kennedy; clerk of course, W. O. Turrell

At Lincoln—Lincoln 4, Omaha 6.

A Suit for Libel.

Topeka, Kan., June 13. Suit was begun to-day in the District Court by Judge C. G. Foster of the Federal Court for criminal libel against Maj. J. K. Hudson, editor of the Topeka Capital, and State printer-elect. They have been enemies for a long time. In a recent editorial Judge Foster was called a "legal tyrant," and accused of drawing salary as judge for services he was not able to perform. Maj. Hudson is at present in New York on business President Grant appointed Judge Foster to his present position.

There Were Six.

It was a new town in the west, and after breakfast I wandered up and down the one long street to find the office of the local weekly paper. By and by I came to a shanty with the sign of The Herald over the door, but the door stood open, the windows were out, and it was plain that a removal had taken place.

"Who you lookin fur?" gruffly inquired the saloon man next door.

"For the editor."

"He's over thar!"

"Over where?"

"Can't you see that fenced in place over thar?"

"Certainly. Looks to me like a graveyard."

"And so it is, and that's where he's planted! You ar' speakin of the last one, I take it?"

"Has more than one been planted around here?"

"I should gurgle that there had! Let's see? One two three four five hol on a minit! Hello, Hank!"

Hank came across the street, and the saloonist asked:

"How many of these newspaper critters hev bin planted around here?"

"Six," was the prompt reply, "and they say thar's another cayse in town smellin around to start another paper. I'm jest lookin him up! Is this the feller?"

"Oh, no!" I replied in my softest tones. "I'm either going to start a saloon or a faro bank. I was jest inquiring out of curiosity."

"Then that's all right, and we'll drink at your expense. Any legitimate business is welcome here, but the critter who comes along with a newspaper hurts our feelin's and insults our manhood, and has got to dodge or drop Saloon or faro, eh? Better make it faro, cause we are long on saloons and short on faros jest now. Glad to meet you. Allus does me good to shake hands with a newcomer who has the interests of this town at heart!" Detroit Free Press.

Postponed.

Lover (in whisper 'neath window) Are you ready to lower yourself down, darling?

Isabel E. Loper Quite ready.

Lover Have you got everything?

Isabel E. L. Yes. Everything but papa's pocketbook. I couldn't find it anywhere

Lover (dejectedly) Alas, for obvious reasons, we shall be obliged to postpone our departure! Boston Courier.

Cautious.

Doctor Take a teaspoonful amount of exercise daily.

Patient Will it be enough if I walk two miles and my wife's theater hat every day?

Doctor You'd better not risk overexerting yourself at first. Begin with once and increase the laps as you feel able. —Life.

Moore could "sing like an angel." He sang his own love songs with such effect that a lady friend once stopped him in the midst of one of his best efforts. "Please stop, Mr. Moore; this is not good for my soul."

G. O. Taylor Whiskies, every way beneficial.

THE best investment in real estate is to keep buildings well painted. Paint protects the house and saves repairs. You sometimes want to sell many a good house has remained unsold for want of paint. The rule should be, though, "the best paint or none." That means

Strictly Pure White Lead

You cannot afford to use *cheap paints*. To be sure of getting Strictly Pure White Lead, look at the brand; any of these are safe:

"Southern," "Red Seal," "Collier."

FOR COLORS. National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

A good many thousand dollars have been saved property-owners by having our book on painting and color-card. Send us a postal card and get both free.

NATIONAL LEAD CO.

KIRK'S

Great Fight in Colorado Springs Against Dirt and the Drudgery of Wash Day.

116 Persons Who Obtained a Free Sample Package at the Gazette Office Already Heard From

Who Testify to the Merits of His New Preparation,

"RAIN WATER MAKER."

That already so many people have voluntarily come forward and testified to the merits of "Rain Water Maker" shows conclusively that the public is appreciating the efforts made by Mr. Kirk to produce an entirely harmless preparation that should lessen the drudgery of wash-day and the wear and tear of clothes heretofore subject to the usual manner of washing.

One lady reports that after washing with Kirk's "Rain Water Maker" her hands were as soft and smooth as a child's. She said: "No, I do not care to have you publish my name; I do not think my husband would like it, but I shall do all in my power to get all my friends to use 'Rain Water Maker.' Do you know," she said, further on in conversation, "that I do not believe I used more than half the amount of soap I have been accustomed to using before I prepared the water with Kirk's new discovery. Surely the women of this country should be most grateful to Mr. Kirk for this great boon to womankind."

KIRK'S RAIN-WATER-MAKER

Breaks the hardest water instantly and will hold colors from running in printed goods; keep bluing from curdling in water. Flannels and woolens washed in water prepared with this most valuable preparation will positively not shrink.

For the bath or toilet it is indispensable, making the water soft and velvety, accelerating the action of the soap, giving the skin a healthy glow and helping to remove any superfluous excretions that may adhere to the body.

For the dishes and general washing purposes, it is very essential, as it saves both labor and soap.

This preparation is not to be confounded with soap powder, as it contains no soap, lye, ammonia, lime or any deleterious ingredients.

Kirk's "Rain Water Maker" can be had of all grocers and druggists; 25 cents for a large 2-lb. package. Order a package of your grocer at once for your next wash day.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

OUR NEW LIST

Examine Carefully.

I consider there is only one proper way to advertise that pays, viz: to do it truthfully and candidly; not to misrepresent either through the newspapers or in your store, or allow your employees to do so. How far I have succeeded in adopting this method my crowded store testifies.

A LESSON FROM HISTORY.

It is in direct opposition to the teachings of American history to assume, as so many are now doing, that because the Republican party has not, and is not at all likely to come out right away in a flatfooted declaration for the free and unlimited coinage of silver by this country alone, without previous assurances of foreign co-operation; that there is no prospect for this party to act in settling the matter. The most glorious achievement of the Republican party, the one that men of all parties now join in praising, was the abolition of slavery, and the preservation of the Union. Yet the platform on which Abraham Lincoln was elected president not only did not pledge the party to the abolition of slavery where it already existed, but declared against any invasion of the rights of property in the states by the federal government; not only did not promise to put down the already incipient rebellion, but declared that "we denounce the lawless invasion, by armed force, of the soil of any state or territory, no matter under what pretext, as among the gravest of crimes." These declarations nevertheless were made by the party in good faith, and represented the principles of the majority of its members. There were extremists then, as now, who wanted the party to declare unmistakably for abolition, and denounced the constitution in seeming to prevent abolition, as a "league between the devil and hell." If these extremists had carried the day, would the Republican party have stood any chance at all? Not a particle. An united extremist front would have produced a united reactionist front, and the struggle would have been prolonged for years. Yet the wishes of these extremists are in the law and the constitution to-day. When the time came for action, Lincoln acted, and the Republican party acted with him. When the time came when troops must invade the rebellious states, the troops were sent.

We here in Colorado think that the free coinage of silver is right. In many respects it resembles the old abolition question, and there are many extremists whose utterances will sound as queer forty years from now, as ne utterances of the abolitionist extremist in 1856 sound in our ears. The first steps of any party must be shaped by the average of the political ideas of the people that compose it. The Republican party can settle this question, as it settled the moral questions of slavery and rebellion, but we must be careful lest we condemn the leaders for not going to extremes, just as Lincoln and his advisers were condemned. By remaining in the Republican party, we can raise the average; by leaving it, we lose the chance of having a shaping hand in the final disposition of the matter.

The declarations of a convention that accomplishes the purposes for which it was called, always carry more weight than those of a body that has been switched off on a side issue. If the Memphis gathering had been stampeded into any of the third or fourth or fifth or "x-th" party movements, what it might have had to say on the ostensible subject of its convocation would have carried very little weight. But the resolutions as adopted, by men that still affirm their fealty to their respective parties, cannot but have effect in showing just how thoroughly the bimetallic or silver sentiment has taken hold of the people of a large part of the country. The resolutions are more reasonable than might have been expected from the early days of the convention, and the affair may prove of considerable value to the silver cause, in inverse proportion to its advocacy of the Sibley case.

George DuMaurier brought "Trilby" to a very complete ending, and it is hard to see just how he is going to bring in a sequel that will be more than a continuance of the lives of some of the less important characters of the book. But Mr. DuMaurier's pen is fully equal to the task of making anything interesting, and the new story will be awaited with a great deal of interest.

The reply of Manitoba to the order of the Dominion government to restore the public revenues of the Roman Catholic schools is an adroit one. By bringing in the question of efficiency, the matter of religious prejudice is eliminated from the discussion, and the burden of proof placed on the shoulders of the Catholics. Religious prejudice is comparatively easy to expose, but it is not so easy to show that a sectarian school does as good work as one in which the study is limited to temporal things. The Winnipeg government is undoubtedly emboldened by the fact that the Canadian government has no direct way whatever of enforcing its commands. The only troops that could be sent up there, if things ever came to such a pass, are British troops, and no British government would ever care or dare to face the awful uproar that would arise on the little island if the British flag ever led English soldiers against Protestants, to enforce the claims of the Catholic Church.

"When the cat's away, the mice will play," but when there is a Republican President in the White House, and a Republican Congress at the Capitol, the European countries will not be so brash about coming over on this side of the water, collecting indemnities, and bullying the little nations on the fringe of our garment. The Monroe doctrine isn't dead, and some of these days it will be in working order again.

There hardly seems to be room for doubt that there is a regular understanding among the European nations that now is the best time to bully Nicaragua out of existence, and effectually prevent the United States from getting exclusive control of the canal. After Germany's little bill is settled, there will be another thing of the same sort brought up in another country.

GERMANY THIS TIME.

Another Big Indemnity Claim Against Poor Nicaragua.

New York, June 13.—The Mail and Express this evening prints a statement that Nicaragua has another indemnity case on hand, this time from Germany. The facts are set forth in a long letter from a correspondent at Managua under date of May 28.

The claim dates back to 1860, when Frederick Schultz, a German citizen, discovered rich gold-mines near Principepulka. He obtained titles from the then Inspector General Manuel Trejos, in conformity with the mining laws. Schultz paid for the property and remained in undisturbed possession up to 1888. At that time James Crawford, an American, advised the government to cut down the area of Schultz's claim.

Crawford's advice was taken. The land was re-surveyed and a new law enacted making it obligatory for any citizen of a foreign country who desired to hold real estate to foreswear allegiance to his native country. The law was made retroactive. Leading citizens of Leon drove Schultz off his property, seized his mines and started to work them. The invaders lacked energy and capital, and soon abandoned their efforts. Schultz appealed to the German minister in Guatemala, who reported the facts to Berlin in the Reichstag. It slumbered along until the latter part of 1894. The German minister at Guatemala was unable to obtain any satisfactory explanation or promise from Nicaragua, and after four months' endeavor to secure even an acknowledgement of correspondence, the claim was formally filed.

The correspondent continues: "The enforcement by Germany will mean the complete bankruptcy of the government and the destruction of what credit it now possesses abroad, for the reason that the sum demanded is nearly 10 times greater."

In the same letter the writer avers that "War between Nicaragua and Costa Rica is a question of but a few months, perhaps weeks. Nicaragua has been aggrieved since Mr. Cleveland's arbitration on the boundary question, claiming that she was discriminated against and that part of her territory was unjustly declared to belong to her neighbor.

"Although there has been no notification received, it is the belief of prominent officials here that England will make a second demand for a gross insult offered her consul the night after the warships withdrew from the harbor of Corinto. It is altogether probable that a full report has by this time been made to the English government.

"So, with Costa Rica on her hands, a big claim filed by Germany and another explanation to make to a European power, that has already received $75,000 worth of explanation, the republic of Nicaragua is not what might be called in an enviable position."

New Family Hotel.

Mr. and Mrs. J. J. May have opened the large elegant double house at 323 and 325 East Bijou street, as a family hotel. The house is finely built of pressed brick and cut stone, and is handsomely finished inside. While it is on a quiet side street, removed from the noise of the downtown portion of the city, it is only five minutes' walk to the center of town, and is conveniently located to the street car lines and railways. The house has been elegantly furnished throughout, and apartments can be secured single or en suite. The building is almost new, and is furnished with all the modern conveniences. There are four bath rooms on each floor. The table will be made a special feature of the house.

In connection, Mr. and Mrs. May will continue the running of the Cheyenne house. This is situated in the mouth of Cheyenne canons, close to the Broadmoor Casino, and adjoining the car line. It is in one of the prettiest scenic regions of the vicinity, and is to be heartily recommended to those who are here to enjoy close communion with the mountains in their grander forms. The service at the Cheyenne house is first-class.

Espionage Over Admiral Meade.

Washington, June 13.—According to the Army and Navy Register, published in this city, President Cleveland and Secretary Herbert have not yet abandoned the hope of court-martialing Admiral Meade. The Register says:

"The new feature of the case is the report that Admiral Meade is under observation; that it is expected he will in time make admissions upon which charges for trial by court-martial can be drawn up, and that a court-martial will follow. The Admiral's friends say that this report is based on fact, and they charge that the naval authorities have degenerated into detectives seeking information upon which to arraign the Admiral."

The Admiral's friends say intelligence has reached them to the effect that in revoking the authority of the Admiral to go abroad on a year's leave the President and Secretary Herbert entertained the expectation that sooner or later the Admiral would commit himself. The Admiral is somewhat impulsive at times, it is explained, and in a moment of anger he might say that he was correctly reported in The Tribune. Knowledge of such admission would finally reach the Navy Department, and there would be no delay in calling a court together, it is said. Those who sympathize with the Admiral are highly indignant at the idea of that officer being kept under espionage. They say, however, that the object of the authorities will not be attained, as the Admiral is fully aware of the present expectations in his case, and that he is observing the strictest silence respecting his affairs.

BRAVE POLICEMEN.

A Hundred Drunken Indians Stand Off the Sioux City Police Force.

Sioux City, Ia., June 13.—The unique spectacle was presented in this city today of the whole police force of Sioux City being held at bay by a lot of drunken Indians. Yesterday over 100 of the Winnebago Indians came over from the reservation near Pender, Mo., to sell gooseberries. On the proceeds of the sale of berries the whole lot became very drunk. Accordingly warrants were issued for the arrest of the whole tribe. But the Indians refused to be arrested and refused to leave the city when ordered to do so by the police. The officers are afraid to tackle the whole crowd, and so they are permitted to enjoy themselves.

Lunatic Suicides.

Topeka, Kan., June 13.—Three lunatics confined in the harmless ward of the state insane asylum near this city, made their escape at an early hour this morning. One of them, Bloss McDonald, after gaining his liberty took the rope by which he and his companions had reached the ground and hung himself with it to a tree in front of the asylum. The first intimation that was had of the escape was the discovery of his body dangling from the tree this morning. The other two lunatics have not yet been captured. McDonald was 55 years old, and was sent to the asylum from Brown county a year ago.

LOCAL EVENTS.

LYONS TRIAL IN THE DISTRICT COURT.

Evidence for the Defence being Heard—John Griffith's Rendering of Mephisto in Faust Last Evening—Other News of The City.

In the first division of the District Court yesterday the greater part of the day in the case of the People vs Robert J. Lyons was taken up in the introduction of testimony for the State. A number of witnesses who were not present at the first trial testified. The most important of these was William Grier, a miner, now employed on the Pike's Peak. He testified that he saw the defendant at the explosion both during and after the act.

William Simple testified to seeing Lyons at the explosion. A few days ago he said Lyons had come to him and said that he [illegible] not deny being there but that the witness must not be particular as to the time.

Charles Collier testified that he saw the defendant there, and that he knows him well.

W. B. Brooks testified to seeing a man on a bay horse around the Independence after the explosion, who was identified as Bob Lyons. He seemed to be riding around and giving commands.

Mrs. William Snell testified to seeing Lyons at the explosion both before and after the occurrence.

The case for the State was closed about [illegible] o'clock and Mr Crowell made the opening for the defense. He stated that they would prove an alibi and would be able to prove that the man on the bay horse was not Lyons but a man named Charles Smith and would prove this by Smith's brother and sister.

Two new witnesses were introduced by the defense during the afternoon. The first was George Strong, who testified that he went with Lyons to the house of [illegible] Snell last Sunday. They stayed there three quarters of an hour and talked of the case. Mrs Snell did not know Lyons by sight and was surprised when she found that he was the man talking to her.

A witness named Bissell testified that he saw Lyons in Altman after the explosion.

It will probably take all to-day to complete the defendant's case.

JOHN GRIFFITH.

A New Mephisto in Goethe's Drama, "Faust."

Last evening the young actor, John Griffith presented "Faust" at the opera house. He was greeted by a very nice audience all things considered, and gave a very pleasing performance. The play was billed as Irving's version of the immortal dramatic poem, but wherein it differs from the Morris production it is hard for the layman to indicate. Certainly the acts are arranged the same and also the scenic effects. Mr. Griffith's reading of the lines of Mephisto is essentially different from that of Morrison, however and much better, it might be added. Morrison makes the old fellow a clown or at least a comedian. Griffith plays it with earnestness, although not failing to bring out the cynicism which the audience is usually pleased to take as humor. The fact that the author intended the character to be allegorical is also made more evident. Griffith is a young fellow with a rich voice and good physique. It is to be hoped that he will not make such a great success in this character that he will not be able to get away from it hereafter for better work.

Next to Mr Griffith, the very best piece of work presented was the Valentine of Walter C Cunningham. Mr. George D. Baker is not the very best Faust that ever walked the stage, but he will do. Miss Beatrice Dauncourt is a winsome little Marguerite but lacks the force to make the mad scene thoroughly effective. Yet a person of Marguerite's supposed temperament would probably make the kind of a lunatic that she presented.

The play was well staged and the scenic effects all that could be asked.

Royal Arcanum.

Dr Rice has been appointed examining physician for the new council of the Royal Arcanum in this city, and his commission was issued at Philadelphia a few days ago. The applicants for charter membership will be notified at once to present themselves to him, and then the local council of this great American fraternity will be a reality. The charter list embraces many names of leading professional and business men.

Two Old Cronies.

There is not a more attractive farce-comedy on the road than the "Two Old Cronies" which will be presented at the opera house to-morrow evening. The company numbers in all 20 people and is headed by the prince of comedians, John E. Wills. The other prominent members include Louise Carver, the American pargolette, the three sisters Helston, from the Crystal Palace, London, who will appear in character changes and lightning dances, and their original dance, the Trilby gavotte. Miss Addie Murden, the marvelous soprano, late of the Rob Roy Opera company, whose singing alone is worth the price of admission. W. T. Kennedy the renowned Irish comedian, May Chevelier, Mana Hazlett, Pauline Black, and others. During the piece more than 50 songs, specialties, dances and medleys will be introduced.

A committee of the volunteer firemen proposes to call on the business men for subscriptions to buy roman candles and rockets to be used in the night parade July 4.

Marriage licenses were issued yesterday to Stephen A. Stafford, aged 26, and Emma R. King, aged 15, both of Cripple Creek; to Henry McDonald, aged 29, and Rebecca Ann Gibson, aged 30, both of Cripple Creek.

Quite a number of Colorado Springs people are arranging to go to Denver on [illegible] to witness the games between the team from the University of California and the D. A. C. team.

The Transatlantic Publishing company of New York is about to bring out a book by Mr. A. Z. Reed of this city. It comprises six short stories of Indian life, which have appeared in The Overland Monthly and other magazines, and will be entitled "Lo-to-kah, the Ute." The book will be handsomely illustrated, some of the drawings being by Mr. Chas. Craig of this city.

The adverse suit of the Twin Sisters Mining company vs O. P. Townsend was concluded in the second division of the District Court yesterday and resulted in a verdict for both sides. That is, the plaintiffs were given 15 feet of the territory on each side of a line running through the [illegible] shaft of the Twin Sisters claim. The defendants get all the territory [illegible] the [illegible] Twin Sisters claim.

HOTEL ARRIVALS.

THE ANTLERS.

[illegible]

A PIOUS FRAUD.

A Sunday School Superintendent is a Professional Forger.

[illegible] Moore [illegible] Harlem [illegible] Swann & Co. [illegible] East River Silk company [illegible]

It was discovered that Moore was spending [illegible] on the [illegible] bank [illegible] he was discharged. Mr Moore had so far [illegible] was treasurer of the East River Silk company and owned $2,000 of their capital stock of [illegible]. Yesterday an officer of the Union bank called on Mr Inman and showed him three notes with the name of Inman Swann & Co. written across them issued by the East River Silk company, which were pronounced forgeries by Mr Inman. It was subsequently learned that they were discounted by Moore. This morning Detective Doyle arrested him and took him to the Tombs police court. He was remanded in $5,000 bail on a charge of forgery.

Mr John H Inman said this afternoon: "This thing had been going on for a year, I understand, and it is hard to tell how much bad paper Moore floated. He never let any come to maturity and so evaded discovery."

Late this afternoon the East River Silk company of which Moore was treasurer went into the hands of a receiver. This action of the company was expected and is believed to be due to the forgeries.

Demoralized Western Freight Rates.

Chicago, June 13.—The Western freight rate situation is in a more demoralized condition to-day than it has been for many months. The policy of the disturbing lines seems to be to get everything in sight regardless of cost or profit from handling and they are ready to scramble with the same reckless avidity for the new crops as soon as the moving season opens. The Western officials have not been fighting lately because there has not been anything worth fighting for, but they fear their reputations will suffer if the traffic statements are not swelled, leaving the question of revenues for others to wrestle with.

Chairman Caldwell announced to-day an indefinite postponement of the meeting for organization of a trans-continental association.

To Fight the A. P. A.

Omaha, June 13.—A citizens' movement was organized here last night to fight the A. P. A. Prominent Democrats and Republicans are enrolled and the movement is expected to gain strength and to support at the fall elections only anti-A. P. A. candidates for city and county offices.

L. A. W. Weekly Bulletin.

Philadelphia, June 13.—The following is the weekly bulletin issued by Chairman Gideon of the L. A. W.

Suspended pending investigation: Benjamin Wells, Kent, Ia.; A. D. Kreamer, Des Moines, Ia. (supposed to be the same party), A. W. Cleaver, Los Angeles, Cal.

Transfers to class B: George L. Hall, San Francisco; W. F. McCreary, San Bernardino, Cal.; H. Winsett, Olympia, Wash.; George W. Belfern, Wilmerding, Pa.; Edwin Oliver, Denver.

Additional circuit referees are H. F. Raymond, C. E. Huck, R. G. Steele, W. B. Cole.

Two mile flying start unpaced (class B) record, May 25, at Louisville, Ky., by F. C. Barnett, is 4 minutes 42 2-5 seconds, and has been accepted by the racing board.

For knowingly competing in unsanctioned races, Richard Morris and Charles Hackett of Kansas City, Mo., are suspended for 90 days from May 30.

Electricity for the New York Elevated.

Pittsburg, June 13.—The contract for the electrical equipment of the Manhattan Elevated railway of New York has been awarded to the Westinghouse Electric company of Pittsburg. The contract covers between $7,000,000 and $8,000,000. The official announcement of this fact was given out to-night by F. K. Hain, vice president and general manager of the Manhattan road.

A Race of Horseless Carriages.

Paris, June 13.—The race of horseless carriages, vehicles propelled by either petroleum or steam power, from Paris to Bordeaux and back, a distance of 730 miles, which was started at noon on Monday, was finished to-day and won by Carriage No. 5, which covered the distance in a little over 48 hours. The winning carriage is constructed on the Pichard Levasseur system.

A Canal Opening.

Sault Ste Marie, Ont., June 13.—The opening of the Canadian Soo canal took place to-day, the proceedings being of a mere formal character. The new canal provides Canada with independent communication between Lakes Huron and Superior. The total cost has been $4,000,000.

A Threatened Italian Crisis.

Rome, June 13.—A difficulty threatening a crisis has suddenly arisen. Signor Villa and the members of the minority in the Chamber of Deputies, held a conference after which a committee was appointed to verify the elections. This committee included in its membership seven of Prime Minister Crispi's chief opponents, including Signor Cavalotti. This was regarded as an insult to Signor Crispi. The ministry meditated resigning but finally decided to summon a conference, a majority of which will probably compel Signor Villa to resign.

More Money but Less Wheat.

St. Louis, June 13.—Cash wheat in the local market to-day sold for $1. It was a car load of 1895 crop raised in Missouri and graded No. 2 red, but the yield when threshed was only 10 bushels to the acre in place of 20 bushels formerly.

An Enormous Verdict.

Duluth, Minn., June 13.—Early this evening the Federal jury in the million and a quarter dollar suit of Alfred Merritt vs John D. Rockefeller, the Standard Oil king, returned a verdict of $940,000 for the plaintiff.

Betrayed by a Pen.

"Annabel," called a Harlem mother over the banisters as she heard the front door close.

"Yes, mamma," replied a sweet girlish voice, and Annabel Googan slowly framed herself in the darkness of the staircase.

"Was that Mr. Tuberry, Annabel?"

"It was, mamma."

"Do you know it is 20 minutes past 11?" came in cold tones from the wrappered figure in the upper hall.

"Mamma, we hadn't the slightest idea it was so late," said the young girl earnestly. "You see," she continued, "Mr. Tuberry has been telling me about China and Japan. He said every one ought to know about the war, and it was so interesting we never thought how late it was getting. Do you know, mamma," added the sweet girl as she reached the landing, "that in China they—"

"Did Mr. Tuberry draw a map of China on your face, Annabel?" asked Mrs. Googan sternly.

"Why, mamma," said the daughter in startled tones.

The young girl rushed to a mirror and saw with horror stricken glance that the left side of her face was streaked and stained with ink.

"Heaven and earth!" she screamed. "His fountain pen must have leaked into his waistcoat pocket," and with a shriek of horror the beautiful girl fell fainting to the floor.—New York Advertiser.

Prepared For the Worst.

The Eskimo stood on the summit of what once had been Greenland's icy mountain and gazed anxiously southward.

"I am glad," he observed, "that we had the foresight to salt down a few barrels of nice snowballs. They'll taste pretty good if these new fashioned winters keep up."

With a sigh he laid aside his light bearskin duster and mopped the perspiration from his brow.—Detroit Tribune.

Live soft-shell crabs, Chicago Fish Market, Telephone 163.

Cripple Creek excursion Tuesday, June 18, over the Colorado Midland. Round trip $2.50. Train connects at Victor for Cripple Creek, fare 40 cents additional.

Cut Rates.

We buy, sell and exchange railroad tickets. Reduced rates East, West and South. Munson's, 10 Pike's Peak avenue, three doors east of The Antlers hotel.

One Treatment Free.

Mines and Stocks.

SILVER 67¼
LEAD 3.07½

THE MINING EXCHANGE.

First Call.

Colorado Springs, June 13.—A very good morning's business was done at the first call of the Exchange. The good number of ten stocks were traded in and the sales averaged over 500 each. Mt. Rosa was once again the heaviest seller of the call and once again every share that changed hands brought 5½ which has been the rule all this week. Mollie Gibson has taken the place of Argentum as far as activity is concerned, but the price is not so high though the latter stock is offered lower than for the past day or two. The old favorite silver had an even thousand sales, the bulk of which brought 68, only 300 shares bringing half a cent better than that. Union was again fairly busy with 5000 sales, all of which brought 14¾ and still without any sign of moving either up or down in price. Fannie Rawlings is in pretty good demand and is selling quite freely at 5⅝. The Isabella sales were in the stamped stock which brought 16¼. Alamo had a single thousand sales at 3¾ and an odd lot of 350 Creede and Cripple Creek brought 2⅜. Consolidated was allowed to go even a little lower than on the previous day, the only sales made bringing 4⅜.

	Bid.	Ask.	Sales.
Alamo	3	3⅜	1000
Anaconda	38½	39½	1100
Argentum-Juniata	97	1.00	.....
Bob Lee	060	065	.....
Consolidated	4⅜	5	1000
C. O. D.	2½	3	.....
Creede & Cripple Creek	2	2¼	250
Franklin	070	080	.....
Fanny Rawlings	5½	5¾	2000
Gold and Globe	7½	8	.....
Isabella	16¾	16⅞	.....
Isabella (stamped)	16¼	16¾	2000
Mt. Rosa	5⅜	5⅝	10000
Mollie Gibson	95½	96	1000
Pharmacist	5¾	5⅞	1000
Portland	6¼	6½	.....
Specimen	2⅝	3¼	.....
Summit	6	6¼	.....
Union	14¼	14½	5000
Work	2⅞	3	.....

Second Call

Business was again good at the second and thanks to a good deal of activity in Union the total sales were a good deal heavier. The stock in question has at last made a move of some kind and though the price went downwards, it resulted in heavy trading. The ball was opened with the sale of 10,000 shares at 4 and this was followed by several others at the same figure, while a couple of thousand or so brought 14⅛. The stock closed in very good demand at the lower figure and it was being held stiffly at 14⅜. For a wonder there were no sales in Mt. Rosa and the bears took occasion to work with the stock. They did so by offering first 25,000 shares and then 50,000 shares at 5¼ and the best bid for it was 5⅛. Both the Isabellas were selling, the regular stock with 6000 shares and the stamped variety with 2000 shares to its credit. The first named showed a strengthening disposition for after a few hundreds had changed hands at 17 a 5000 block was taken up at 17¼. The stamped stock brought 16½ and is strong at that figure. Mollie Gibson was again the only silver stock moving. It went at lower prices than ever, the 300 sales bringing only 95. Of the other traders Pharmacist was the most prominent with 5000 sales at 5¾. The total sales in the listed stocks for the day amounted to 61,450 shares.

	Bid.	Ask.	Sales.
Alamo	3	3⅜	.....
Anaconda	38½	39½	.....
Argentum-Juniata	97½	1.00	.....
Bob Lee	060	065	.....
Consolidated	4¾	5	.....
C. O. D.	2½	3	.....
Creede & Cripple Creek	1⅞	2¼	1200
Franklin	070	090	.....
Fanny Rawlings	5½	5⅝	1000
Gold and Globe	7½	8	.....
Isabella	16⅞	17½	6000
Isabella (stamped)	16½	17	2000
Mt. Rosa	5⅛	5½	.....
Mollie Gibson	94	95	300
Pharmacist	5⅝	5¾	5000
Portland	66½	67½	.....
Specimen	2½	3¼	.....
Summit	6⅝	6⅞	.....
Union	14	14⅛	21500
Work	2⅞	3	.....

Separate Sales.

The separate sales for the first call were: Alamo, 1000 at 3¼; Anaconda, 1000 at 39 and 100 at 38½; Consolidated, 1000 at 4¾; Creede and C. C., 250 at 2⅛; Fanny R., 2000 at 5⅝; Stamped Isabella, 2000 at 16½; Mt. Rosa, 10,000 at 5½; Mollie Gibson, 300 at 96½ and 700 at 96; Pharmacist, 1000 at 5¾; Union, 5000 at 14⅝. For the second call they were. Creede and C. C., 1000 at 2¼ and 200 at 2; Fanny R., 1000 at 5⅝; Isabella, 1000 at 17 and 5000 at 17⅛; Stamped Isabella, 2000 at 16½; Mollie G., 500 at 95; Pharmacist, 5000 at 5¾; Union, 2500 at 14⅛ and 19,000 at 14.

Sales in Unlisted Stocks.

Trading in the "free list" stocks was again lively. The sales were as follows: Ben Hur, 21,000 at 1⅞ and 195 at 2; Union Leasing, 500 at 69½; Virginia M., 3000 at 1½. Goldstone, 7360 at $1.50 per 1000; Gold King, 2000 at 21; Lottie G., 5000 at $3 per 1000; Ophir, 3000 at 4⅝. This makes the total for the day 113,415 shares.

The Denver Mint.

Special to The Gazette:

Denver, June 13.—The officials at the mint were again kept busy receiving the various deposits handed in to-day. The number of ounces totaled up to 1096 which were valued at $17,600. The deposits were credited as follows: Chaffee, ore deposit, 180 ounces; New Mexico, one deposit, 7 ounces; San Juan, one, 63 ounces; Summit, one, 17 ounces; Wyoming, two, 72 ounces; Boulder, one, 11 ounces; El Paso, one 10 ounces; California, one, 9 ounces; Utah, one 6 ounces; "Colorado Unknown," one 721 ounces.

The rumors concerning the resumption of work on the Deep Shaft at Aspen are growing more numerous and it has now become the general belief that matters have been so arranged as to enable the reorganization of the company and the starting of the most complete pumping plant in the camp. The starting up of this property means much to the properties at the foot of Aspen mountain, one of among which is the Aspen Mining & Smelting company.

Things are pretty lively around Gillett these days in a mining way. The Kirk brothers of the Last Resort are sacking ore and will make a shipment in a few days. J. D. Crockett, who has been working the Baby Moore, has some fine looking ore which runs $12 to $15.50 to the ton.

THE BOARD OF TRADE.

First Call.

Colorado Springs, June 13.—In comparison with the other calls of the week that of this morning at the Board of Trade was somewhat dull. A good many stocks were traded in however but the sales were light for the most part. The heaviest seller was Granite Hill with a straight sale of 10,000 shares at $8.75 per 1000. Consolidated, which has been an active seller for quite a long stretch of time, had 6500 sales but the price was poor. A block of 2500 shares brought 5 but the remainder of the stock was allowed to go at 4⅞. Columbine had exactly the same number of sales as Consolidated. It all brought high figures, the bulk of it going for $12 per 1000 Buckhorn holds firm in price but was contented with a single thousand sales. Mt. Rosa was fairly active but was a little off color in price, the deal being made at 5¼. Alamo, on the other hand, was very strong and the only sales made were at 3½, a gain of several points over the last few sales that have been made. Most of the sellers on the list were the cheaper stocks and were selling from $4 to $12 per 1000. Following are the sales for the first call:

Consolidated, 4000 at 4⅞, 2500 at 5.
Columbine, 500 at $12 and 6000 at $12.50 per 1000.
Buckhorn, 1000 at 17⅝.
Alamo, 2000 at 3½.
Calumet, 4500 at $4 per 1000.
Nugget, 1000 at 9¾ (30 days), 1000 at 9½ and 500 at 9.
Golden Eagle, 1000 at $12 per 1000.
Jack Pot, 1000 at 1⅞.
Goldstone, 2000 at $1.75 per 1000.
Golden Age, 1000 at $7.75 per 1000.
Granite Hill, 10,000 at $8.75 per 1000.
Mt. Rosa, 2500 at 5¼.
Silver State, 1000 at $6.50 per 1000.
Pharmacist, 1000 at 5⅞.
World, 333 at 1½.
Magna Charta, 1000 at $7 per 1000.
Copper Mountain, 3000 at $5 per 1000.

Second Call.

Business was again comparatively dull at the second call of the Board of Trade, the total sales being about 70,000 less than at the morning call. It is worthy of note, however, that only four stocks out of the 11 traded in had less than 3000 sales. Of a very even lot GraniteHill was on top in point of sales, having 10,000 shares to its credit. The stock sold at about the same figures as in the morning, there being but very little variation in the price for the past few days. It was closely followed by Golden Eagle with 7000 sales at $12 and $12.50 per 1000, and Ophir, which is lively at 4½ and 4⅝. After these Gould, Buckhorn, Consolidated, Union and Gould came with a rush with 3000 and 3500 sales each. All the stocks appear to be in good favor with the exception of Consolidated which is weak at 5. Of the other sellers on the list Creede and C. C. was the most prominent, with sales at 1⅞. The total sales for the day amounted to 91,833 shares.

Union, 3500 at 14½.
Silver State, 2000 at 6½.
Granite Hill, 5000 at $8.50, and 5000 at $8.75 per 1000.
Gould, 3000 at 3½.
Ophir, 3000 at 4½, 1000 at 4⅝ and 300 at 4¾.
Buckhorn, 3000 at 2.
Nugget, 1000 at 9.
Golden Eagle, 5000 at $12.25 and 2000 at $12. per 1000.
Consolidated, 3500 at 5.
Summit, 500 at 6.
Creede and C. C., 1200 at 1⅞.

The Denver Pit.

Special to The Gazette:

Denver, June 13.—The market opened in a lively mood to-day and continued in that agreeable state to the finish. The activity started with Justice which was credited with over 13,000 sales, all of which sold around the 2½ mark. There were plenty of bidders on the floor for the stock when the hammer fell for the last time but there were few sellers. One broker bid 2⅝ for as much as 50,000 shares. Bangkok was even a heavier seller than Justice, the sales in it being close to 20,000 shares. The price was first pushed up by the bulls and then torn down by the bears, but it finally rested between 15 and 15½. Mt. Rosa was a strong active stock. The closing quotations were somewhat wide apart but the stock brought 5½. The other active stocks were Mollie Gibson, Gold Standard, Big Six and Anaconda, and besides the bid for 50,000 shares of Justice there were also others of 38 for 5000 Anaconda and 2⅝ for 10,000 Gold Standard.

	Bid.	Ask	Sales.
Amity	082	095	.....
Aola	075	085	.....
Anaconda	38	38½	100
Bangkok	15¼	15⅝	19300
Big Six	9½	10	100
Boston & Idaho Tunnel	23½	25	.....
Forepaugh	40	70	.....
Gold Standard	2⅝	2⅞	100
Gold and Globe	7¾	7⅞	.....
Justice	2⅜	2⅝	13200
Mollie Gibson	90	98	200
Mt. Rosa	5¼	5⅜	2000
Pharmacist	5	6	.....
Work	3	3¼	.....

The curb sales were as follows: Creede and Cripple Creek, 1000 at 2. Union-Leasing, 200 at 72.

Buy Union Leasing, Golden Eagle of Leadville and Columbine Tunnel of Cripple Creek. The Woods Investment Co., 20 North Tejon street.

Current News.

The lessees of the Pike's Peak dump made a shipment of a few tons of ore Tuesday which ran about $60 to the ton.

Mr. Henry Russell Wray returned from Philadelphia early yesterday morning and was welcomed by many friends at the Board of Trade and the Mining Exchange.

The total sales on the Mining Exchange and the Board of Trade yesterday amounted to 205,248 shares. Of this number 113,415 shares were credited to the Exchange and 91,833 shares to the Board of Trade.

The members of the Exchange had arranged to play a practice game of ball in anticipation of their coming contest with the members of the Board of Trade. The weather was threatening, however, and they did not turn out. Mr. Sherwood Aldrich is captain and he is getting a good team together.

Mr. J. R. McKinnie requests The Gazette to correct the statement that he was the fortunate owner of a one-third interest in the Midget lode. The real gentleman is a Mr. M. Kinney of Cripple Creek.

A carload of ore was sent to the cyanide mill at Florence from the Nina M., a claim located two miles south of Wilbur on the Florence and Cripple Creek railroad this week, and is believed to be pay.

The El Paso Reduction Works company are busy building an addition to their mill. The company will double their capacity in milling ore. The machinery has been ordered.

It is said that the new board of directors of the Little Annie company has notified B. Clark Wheeler and associates that the lease now in operation on the property is considered illegal and void, and make a formal demand for possession of the mine.

It is safe to say that the old workings of former producers are at the present time undergoing a more thorough examination by prospective leasers than for a number of years past, says the Aspen Times. As a result of this, ore is being discovered in old drifts and stopes that had been considered worked out, and leases are being let on properties that could not have been worked by companies except at a loss. Well posted mining men say that they are a greater number of men employed on leases in the camp at the present time than ever before in the history of Aspen and that the percentage of non-paying leases is smaller than ever before. The same remark might well apply to Leadville, Cripple Creek and several other Colorado camps.

An exchange says that Messrs. Smith of West Colorado Springs are erecting a fine plant building about 35x40 feet as a shaft-house and battery rooms, upon the lot of Mr. Bernhardt, in West Colorado Springs. The plant will have a hoister and large pump. The water from the shaft is to be pumped into tanks and they will be tapped to a large battery of tanks charged after the Pearce formula for collecting gold and platinum from aqueous solutions. This is the water on which a 6000-gallon test was made, which showed 8 cents per ton gold values. From the grass roots down to 30 feet the gravel and sands assayed gold values from a trace to $30 per ton, but on water level being reached, so far as now known, the gold value is in the water as in solution. The gold in the West Colorado Springs gravel beds is soluble in water and the Pike's Peak Fountain Moraine beds seem to have this kind of gold as a deposit. Parties are asking license for Colorado City, intending to put up another plant.

STRIKE IN THE A. J.

A Four Foot Vein that Carries from 200 to 1000 Ounces.

The A. J. again comes to the front with one of the most important mineral strikes ever made in the camp, says the Aspen Times. For some time past the company has been driving a level north from the incline, believing a large ore body lay in that direction. It appears that the judgment of the manager was all right. Saturday the expected ore body was encountered, and is proving not only valuable as regards grade, but is of immense size and still growing larger. In fact, it is said they don't know yet what they have encountered.

Some twenty feet of the ore chute has been cut, and the end is not yet. The strike consists of a four-foot vein that assays from 200 to 1000 ounces the entire width. At one point the ore has been taken out for a distance of fifteen feet above the level, and it looks just as good as at the point where it was first discovered. No work has been done on the ore body below the level, and it may continue down to China for all the evidence to the contrary.

The strike is an entirely new one, and is considered of great importance by the company, as it goes far toward proving that they are working on the right system, inasmuch as the ore has been found just where they expected to find it. Former strikes have been valuable and of high grade, but from present indications the strike made Saturday will prove of immense size and add to the surplus in the treasury a sufficient sum to enable the company to declare a handsome dividend within a very short time.

LEADVILLE NOTES.

The Latest News of the Prominent Mines Around the Cloud City.

Among the new companies formed to operate on the gold belt is the Big Four Mining company, which has secured the Rocky and Sunflake lodes, on the South Evans slope of Breece hill. These properties adjoin the Fanny Rawlings on the east. A new shaft will be commenced at once, and it will be known as the Heney, after J. W. Heney, of Michigan, one of the members of the company. Mr. McCreary, who represented the United States during Harrison's administration in one of the South American countries, is also prominently identified with the enterprise. Timothy Goodwin, who is operating the Winnie property, is the manager of the company, and confident that good mineral will be found.

The Tenderfoot, which adjoins the Winnie on the east, has just been leased to Messrs. Palmer and Goodwin, and it is their intention to start a new shaft on the property. In 1891 the property was worked by lessees, and in the old shaft they struck some fine lead ore, which carried as high as one and one-half ounces of gold, in addition to its silver value. The streak was from three to five feet in thickness, and was found about 150 feet from the surface.

The Winnie's daily shipments are 12 tons of gold ore.

The Arena Mining company is one of the most important of the active enterprises in South Evans gulch. The company, which is managed by George F. Campion, has control of the Little Ellen, Izard, Gnome and several other claims. The principal work being done on the Izard. The Izard shaft is 240 feet deep, and the drifts run north into the hill and drifts have been run in 300 feet in the lime. The ore body is opened up 200 feet in length, and from one to eight feet in width. It would appear that they are now on the top of the mineral, and it is the intention to sink the shaft deeper,—and drift out under it. Shipments at present are irregular. The stuff now being taken out will yield $25 net smelter returns.

There is some talk that the famous El Captain mine, on Thayer hill, is about to resume operations. This mine was quite a producer some years ago, and is noted as being the first mine to find ore on the blue limestone at any point north of the regular Leadville contact. Most of the prospecting in that region was for gold only, and some fairly good bodies of auriferous quartz were encountered. Some years ago this point was the scene of great activity, but for some reason the mill that was built to crush and save the gold of the ores there was not of much efficiency, and gradually operations ceased. The sides of Taylor hill being covered with heavy timber the geological structure was for a long time practically unknown, though lower down the sedimentary beds crop out.

The vein material is composed mainly of an iron stained clay, which alternates with layers of light colored chert, which carries more gold than silver to the ton, as a rule.

THE MARKETS.

New York, June 13. Money on call has been easy at 1 per cent.; last loan at 1, and closing offered at 1 per cent. Prime mercantile paper 3@3½ per cent. Bar silver 67. Mexican dollars 53¼. Sterling exchange is easy with actual business in bankers bills at $4.88¼@4.88½ for 60 days, and 4.89½ for demand. Posted rates $4.89@4.90. Commercial bills $4.87¼@4.88.

Government bonds firm; State bonds steady; railroad bonds strong. Silver at the board was firm.

The stock market opened with few traces of yesterday's weakness. In fact, there was a regular scramble to cover short contracts put out near the close yesterday on intimation that the Supreme Court of Illinois had declared the Whisky Trust illegal. At the close the market was strong in tone with net advances of anywhere from ¼ to 2½ per cent. The total sales were 318,471 shares, including 49,000 Sugar and 41,100 Chicago Gas. The bond market was active and strong. Transactions were $2,898,000.

CHICAGO GRAIN.

Chicago, June 13. The selling inclination was still prominent in wheat this morning. The glowing reports from the Northwest, coupled with the advance in prices recently made begins to have the effect of counteracting further strength originating in the damage suffered by winter wheat. Then, too, rains have been falling and the drouth in all intents has been broken. It is believed that heavy sales yesterday and some made at the opening to-day represented a portion of the holdings of the big bulls. As the breach in prices widens the leading bears become noticeably identified with the "short" side of the market.

Whilst it is acknowledged that the crop of corn cannot be spoken of with anything of certainty at the present time, still the fact that conditions have, so far, been favorable is encouraging. The Cincinnati Price Current voiced this sentiment in its summary this morning and prices, like those of wheat, lost something on the statement. Subsequently there was more steadiness, due, apparently to similar feeling in wheat.

CLOSING PRICES.

Wheat—June 78¼; July 78⅝; Sept. 79⅝.

Corn—June 50⅝; July 51; Sept. 72; May C.

Oats—June 29¼; July 29⅞; Sept. 29¼; May 23⅞.

TWO HOURS QUICKER TIME TO CHICAGO,

Via the Santa Fe route. By the new time card, the running time to Chicago is shortened two hours, and the train leaving Colorado Springs at 9:42 p. m., arrives in Chicago in time for the morning connections with all roads to the East. Solid vestibuled train.

RAILROAD LOCALS.

An Accomplished Fact.

May 19 the Nickel Plate road inaugurated a new train service. The new summer schedule affords the same number of trains as before, including through service between Chicago, Cleveland, Buffalo, New York and Boston. The improvements also embrace the shortening of time of trains between all of the above cities. Colored porters in uniforms in charge of day coaches to attend to both first and second class passengers. Rates always the lowest. For further information address your nearest ticket agent, or J. Y. Calahan, General Agent, 111 Adams street, Chicago, Ill.

Facilities for Travellers.

The Nickel Plate road now offers better facilities to the traveling public than ever, the improved service having been inaugurated May 19. No change of cars between Chicago, New York and Boston in either direction. Superb dining car service between Chicago and Buffalo in both directions. Trains leave Chicago at 8.05 a. m. daily except Sunday, 1.30 and 9.20 p. m. daily for Fort Wayne, Fostoria, Cleveland, Erie, Buffalo, New York and Boston. 1.30 p. m. train arrives at New York at 6.30 and Boston 9 o'clock the following evening. Uniformed colored porters in charge of day coaches. Lowest rates on all trains. If further information is desired, call on your nearest ticket agent, or address J. Y. Calahan, General Agent 111 Adams street, Chicago, Ill.

ONLY ONE NIGHT OUT,

Or only one day out to St. Louis—just as you like—via the Great Rock Island route.

THAT TRIP EAST

May be for business or pleasure, or both; but pleasure comes by making a business of traveling East over the Santa Fe route as far as Chicago.

Thirty miles the shortest line between Missouri river and Chicago; that means quick time and sure connections.

Track is straight, rock-ballasted, with very few crossings at grade.

No prettier, cosier or more comfortable trains enter Chicago than those over the Santa Fe. They are vestibuled limited expresses, with latest pattern Pullmans and free chair cars. Meals in dining cars served on plan of paying for what is ordered.

Inquire of nearest agent, or address C. C. Hoyt, Commercial agent, Colorado Springs.

VICTOR AND RETURN, $3 00.

Three dollars, round trip, to Victor via the Colorado Midland, on Sundays.

LEADVILLE.

Nothing could be more convenient than the service arranged by the new management of the South Park line, taking effect Sunday the 9th inst.

Two daily through trains have been scheduled between Denver and Leadville; the morning train, with palace reclining chair car, is to leave Denver at 8:40 as at present but the running time is quickened so as to reach Leadville at 5:30 p. m.—ahead of all other lines; day train to leave Leadville at 9:15 a. m., arriving Denver 6:15 p. m.

The fine new night train with sleeping car, chair car and modern coach, will run as follows: Leave Denver 8:35 p. m.; arrive Leadville 7:05 a. m.; will leave Leadville 9.30 p. m. and reach Denver at 7:30 a. m.

Several new trains are added on the Morrison branch, and a fast local train put in service Saturdays and Mondays between Denver and Grant, for the particular accommodation of sportsmen.

For copies of schedule and for more particular information, please address

B. L. WINCHELL,
General Passenger Agent, Denver, Colo.

The Nickel Plate's New Trains.

The new service of the Nickel Plate road, which went into effect Sunday, May 19, has met the approval of the traveling public. On all sides are heard expressions of universal satisfaction regarding the efforts which this popular road is making in the interests of its patrons. Three fast trains are now run in each direction daily. Superb dining car service; no change of cars for any class of passengers between Chicago, New York and Boston. Uniformed colored porters in charge of day coaches on through trains are constantly at the disposal of our patrons, and are especially appreciated by ladies traveling alone. This extra service assures scrupulously clean cars en route. Lowest rates on all trains. For further information confer with your nearest ticket agent, or address J. Y. Calahan, General Agent, 111 Adams street, Chicago, Ill.

Excursion Rate to Boston, Mass.

One fare for the round trip. Tickets on sale July 3 to 6; good for return to and including July 27. The Santa Fe route has been selected by the Colorado Societies of Christian Endeavor as the official route.

Special train will leave Colorado Springs July 5. For information and sleeping car reservations, apply to C. C. Hoyt, City Passenger Agent, Santa Fe Ticket office.

THE BURLINGTON ROUTE

Has been selected by the traveling public as "the route" to all points East. Now that summer is here, there's no use postponing that trip any longer. Everything is in your favor. Rates are low, weather is pleasant, our service is better than ever.

Note the following round-trip rates, which will be on sale to all:

Cleveland, O., rate, $38.25; selling day, June 16, account Republican league.

Chattanooga, Tenn., rate, $33 50; selling days, June 23 and 24; account Epworth league.

Boston, Mass., rate, $47.65 and $50.00; selling days, July 3 to 6; account Christian Endeavor.

Baltimore, Md., rate $44.75; selling days July 13 and 14; account Baptist union.

Boston, Mass., rate, $47.95 and $50.00; selling days, Aug. 17 to 22; account of Knights Templar conclave.

Louisville, Ky., rate, $29 95; selling days Sept. 6 to 8; account G. A. R. encampment.

Summer tourist rates now in effect to Yellowstone park, Billings, Helena, Spokane and the great Northwest. People who are in a hurry always take the Burlington route. Our flyers leave Denver daily at 11 a. m. and 9.50 p. m. Our "a la carte" dining-car service fills a long-felt want. As to our equipment and track, note a few of our official records: 105 miles in 104 minutes, 111 miles in 108 minutes, and so on. Finally, when in doubt: "Take the Burlington route." You can't do better; you might do worse.

Remember, Mr. J. M. Ellison, general agent D. & R. G., can ticket you at lowest rates. Call on him and get full particulars. Should you desire any special information write or wire

G. W. VALLERY, General Agent,
1039 Seventeenth street, Denver.

Christian Endeavor Convention at Boston

The Colorado State Society Y. P. S. C. E. has selected the Santa Fe route as the official line and will run a special train from Denver, starting on July 5. This will be distinctively a convention train, taking on the societies from Colorado Springs, Pueblo, Canon City and other points. Will stop over Sunday at Chicago, and there be joined by delegates from that city. Will also stop a day at Niagara Falls.

Full particulars, rates, etc., may be obtained of T. P. Barber, or at the Santa Fe City ticket office.

The Christian Endeavor Excursion.
(Corrected Notice.)

The official route to Boston and return for the Christian Endeavor association, is the Santa Fe and Wabash. Leave Denver 1:30 p. m., Friday, July 5, taking up Colorado Springs, Pueblo and New Mexico delegations enroute; also parties wishing to make connections with the train at these points arriving at Chicago Sunday morning at 9 o'clock.

The "Wabash Special" Christian Endeavor train will leave Chicago at 6 p. m. Monday, taking breakfast at Niagara Falls Tuesday, and spending the entire day there, arriving at Boston 4 p. m., Wednesday, July 12.

Parties wishing to do so, may leave Chicago at 3:30 or 10:30 p. m., on the regular Wabash trains, Sunday or Monday.

All desiring to go, please make application immediately to the undersigned for sleeping car accomodations.

Further information cheerfully furnished.

One fare for the round trip.

C. M. HAMPSON,
Commercial Agent, 1035 Seventeenth st., Denver.

ANOTHER CHEAP EXCURSION.

The Rio Grande to Denver and return $2.90; selling days June 7, 9, and 11; good till June 16. Five daily trains.

CRIPPLE CREEK AND VICTOR, NEW TRAIN SERVICE.

Four trains daily each way, via the Colorado Midland railroad.

Overland Park Races, Denver; Round Trip Rate, Santa Fe Route.

Dates of sale, June 7, 9 and 11, final limit June 16. Good to go and return on all regular trains, $2.90.

VERY LOW EXCURSION RATE—LAS VEGAS HOT SPRINGS.

For the opening of the Montezuma hotel June 20, the Santa Fe will make the extremely low rate of $6 50 for the round trip. Tickets will be sold June 18 and 19, good for return until June —.

DEPOSIT THE AMOUNT

Of the fare with the Santa Fe ticket agent and the ticket will be telegraphed without extra cost, to any point in the East, for any party you may desire to send for.

Overland Park Races.

The races at Overland Park this year are a greater success than for any previous year in the history of the association, there being more and better horses than ever before; and the attendance larger.

The attractions for the balance of the week are as follows: On Thursday afternoon there will be a mile race between Directly and Carbonate, each holding world records as two-year-olds. On Friday afternoon Robert J., the famous pacer, will go an exhibition mile. Alix with a record of two, three and three-quarters, will trot an exhibition mile. On Saturday afternoon there will be a twenty-five mile handicap bicycle race.

Hats, caps and all other kinds of goods on same scale of prices.

Yours to please,

A. ARMENTROUT,

19 S. Tejon St.

Goods Well Bought are Half Sold.

That is the secret of our fast sales and fast increasing business. The trick of buying the right thing at the right time and at the right price is the trick that gets our business. Drummers tell us we are the closest buyers they strike, and when they come to us they know they have to make exceeding close prices, but can depend on selling us larger lots. Now we could not buy large lots unless we sold them, and the way we sell them is by giving the benefit of our close buying to our customers as all our *old* customers well know. For instance, this week we we offer 10 packages toilet paper and a fine patent holder for $1.00. 1 lb. package Insect Powder with a blower for 50c. Our low prices will astonish you.
